EBAY AUCTION ANNOUNCED TO BENEFIT ALLEN SHELLENBERGER, DRUMMER FOR PLATINUM ROCK BAND LIT

Ebay Auction to include autographed items from Pierce Brosnan, American Idol, Tim McGraw, Nickelback, Donna Summer, Keith Urban, The Offspring, Red Hot Chili Peppers and many others

Auction set to launch on Ebay beginning Monday, September 29th at 12:00 PM

Allen Shellenberger, 39 year-old drummer for Orange County rock band **Lit**, was recently diagnosed with a grade 4 malignant brain tumor. A benefit auction sponsored by The Make A Noise Foundation through **Ebay's Giving Works Program** is being launched to help offset Allen's medical costs. The auction will include autographed items by various celebrities and fellow musicians including an archive-quality signed and numbered giclee of a painting by actor **Pierce Brosnan**, a custom tattoo session by Aces High, a guitar lesson with Grammy-award winning guitarist **Steve Vai**, a "Baby Taylor" guitar autographed by **Tim McGraw**, a "Knocked Up" movie poster signed by Judd Apatow & members of the cast, a dinner with the band Lit, an original lithograph of a painting by **Donna Summer**, a guitar autographed by **Staind**, an amplifier autographed by members of **No Doubt, Sugar Ray & Lit**, Drum Heads by **The Offspring**, "Stadium Arcadium" CD by **Red Hot Chili Peppers** signed by entire band, and autographed items from **James Taylor, Nickelback, Maroon 5** and many other one-of-a-kind items.

For complete info on the auction please visit Lit's MySpace page: www.myspace.com/litlounge. All proceeds from the Ebay auction will benefit Allen and Cedars-Sinai's Maxine Dunitz Neurosurgical Institute in Los Angeles.

In May, biopsy results identified Shellenberger's cancer as malignant glioma. According to the National Cancer Institute, malignant glioma affects approximately 10,000 Americans per year. It is the same type of cancer Senator Edward M. Kennedy is battling. Shellenberger is under the care of world-renowned neurosurgeon Dr. Hunt at the Cedars-Sinai Maxine Dunitz Neurosurgical Institute where he is pursuing radiation and chemotherapy treatments. Despite the news, Allen is in good spirits and committed to the fight.

Lit, who has been both a brotherhood and a band for over 20 years, has enjoyed multi-platinum success and chart-topping singles including "My Own Worst Enemy," "Miserable," and others. After two decades together, the band continues to write, record and tour. "Allen's young and healthy and if anyone has a chance to beat this, it's him," says Lit guitarist Jeremy Popoff. "As sad and scared as we all are, we're standing by him and staying positive. We're going to fight this together."
